PHOTOMETRIC DETERMINATION OF BORON IN
STEEL, tr. by S. Dobriansky. [1960] 11p. 19 refs.
Trans. no. CRL/T-108; M1784.
Order from LC or SLA ml\$2.40, ph\$3.30 61-13114

Trans. of "Zhurnal Analiticheskoy Khimii" (USSR)
1957, v. 12, no. 4, p. 495-498.

The possibility of using carmine for the spectropho-
tometric determination of boron in steel was ascertained.
The determination of small amounts of boron in carbon
steel, as well as in alloy steel, without the preliminary
separation from heavy metals, is possible when
phosphoric acid is added to the solution of steel.
